

iPhone/iPad

For mobile phones and tablets

When accessing the USNDP Grant Management Center (GMC) on an iPhone for an optimal experience and to upload documents into the portal, you must enable the Desktop Site option in your browser settings.

Once enabled, you will be able to navigate the site like you would on a desktop or laptop. We also recommend using landscape orientation for the best viewing experience.

To view the desktop version in Safari (iOS 13 or later):

- Launch the [USNDP Grant Management Center \(GMC\)](#) in Safari
- Tap the icon in the bottom corner near address bar (Image 1)
- Tap the three (3) horizontal line lines located at the bottom right hand corner of the menu (Image 2)
- Either (Image 3):
 - Tap on 'Request Mobile Website' at the top of the screen OR
 - Toggle the 'Request Mobile Website' button at the bottom of the screen
